

Barcode Scanner

The new high speed laser scanner with a scan rate of up to 100 scans per second offers powerful performance and reads various kinds of barcodes quickly and accurately.

The dust- and waterproof design assures operation in any environment. Further, the impact resistant construction delivers protection from shocks when dropped.

The streamlined and ergonomic design with the LED scan indicator and stand ensures comfortable operation without impeding staff.

The automatic trigger operation provides comfort and enhances scan head durability.

QUORION QScan2

Standard Features
