

QUORiON Scan 4

Versatile barcode scanner
for your checkout area

Highlights:

- Adjustable ball head
- Seamless integration via USB or RS232
- Automatic barcode detection
- Optical and acoustic feedback
- Robust & durable

Performance Meets Reliability

The QUORiON Scan 4 is the perfect barcode scanner for your checkout area. With its flexible, tilting ball head, it supports simple and precise scanning of 1D and 2D barcodes.

The scanner automatically detects barcodes and starts scanning as soon as they appear in the scanning area, while visual and audible signals confirm successful capture.

Whether via USB or RS232 - the integration into your QUORiON POS systems is quick and easy.

The compact, robust housing ensures that the QUORiON Scan 4 is reliable and durable, even in high-traffic environments.

Streamline your scanning processes with the powerful and reliable QUORiON Scan 4.

The QUORiON Scan 4 with ball head is ideal for retailers who value functionality, reliability and versatility.

QUORiON Scan 4

Versatile barcode recognition

The scanner supports all common 1D and 2D barcodes, including EAN, UPC, and QR codes.

Easy configuration

The scanner can be easily set up by simply scanning special configuration barcodes in the manual.

Flexible use

While designed for desktop use, the scanner can easily be picked up and used in manual mode to scan barcodes on large objects.

Fast scanning speed

The scanner's rapid and reliable barcode detection reduces waiting times and enhances user productivity.
